LED-8050 120-277V	\$439	\$349
LED-8050 480V	\$485	\$399

External driver can be mounted up to 250' away

These high bay retrofits with **external driver** deliver superior lumen output with a **directional LED array** that outperforms generic "corn" lamps. When installed in high bay fixtures, they provide **3-way dimming** with LED controls.

Both high bay models are available in **120-277V and 480V** options. **Tethers** and **socket extenders** are included.
