Federal Pacific Also Offers...

Low Voltage Transformers Engineered-To-Order

As one of the first major transformer manufacturers to design and build non-standard low voltage transformers, Federal Pacific can provide your customers with their not so off-the-shelf solutions, quickly and cost effectively. Ratings offered up to 2000 kVA with primary and secondary voltage ratings falling within the 600 V category. Contact Electrical Lines, LLC for more information.

Medium Voltage Transformers

Federal Pacific offers highly configured dry-type medium voltage transformer solutions ranging from 15kVA thru 10,000kVA in voltage ratings of 2.5kV through 25kV. Optional construction features include, Vacuum Pressure Impregnation (VPI), outdoor enclosures, fan cooling, close coupling to high voltage and low voltage gear as well as many others. Contact Electrical Lines, LLC for more information.

Air Insulated Switchgear

Federal Pacific has over 26,000 switchgear assemblies now energized and reliably distributing power. We offer ideal solutions for your C&I and Utility applications with ratings ranging from 15kV to 38kV in Pad-mounted and Metal-Enclosed designs. Contact Electrical Lines, LLC for more information.
